SITUATION SUMMARY

The Great ShakeOut, Exercise

On 10/15/15 at 1015 hours, Federal, State, and Local emergency management experts and other official preparedness organizations are preparing for the "Drop, Cover, and Hold On Drill", which exercises the appropriate action to reduce injury and death during earthquakes. For more information on the Great ShakeOut see the attached link. www.shakeout.org

Castella Water Tank Rupture, Shasta and Siskiyou Counties (Final)

- Per Cal OES IDO: The community of Castella had a water tank rupture on 10/08/15. They are currently under a boil water order with samples expected to be taken on Monday for testing. State Water Board Division of Drinking Water is aware of the situation.
- On 10/13/15 The community of Castella received good test results on their water supply. The Boil Water Order has been lifted.

Knights Landing Community Services District Well Failure, Yolo County

- Per Cal OES IDO: Knights Landing Community Services District (CSD) reported a well failure on 10/12/15. This follows a separate well failure several weeks ago. The CSD is now operating on one well. In support of Yolo County and the CSD, Cal OES is coordinating with State Water Board to investigate funding sources to support repairs.
- Yolo County EOC at Level 2 Monday – Friday from 0800-1700 in support of Knights Landing CSD Well Failure.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A low pressure system approaching from the southwest will bring scattered showers and thunderstorms from late today through Friday for portions of Southern California. The best chances will be over the mountains and San Bernardino County. Another chance of rain showers and storms Sunday and Sunday night.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Warmer than normal and dry conditions, are expected through much of the work week, away from the immediate coast. A weak front may bring very light rain to the region on Saturday.

Medford Weather:

High pressure will continue to provide mainly sunny, warm, dry weather over the area today. The thermal trough along the southwest coast this morning will shift inland later this afternoon and this will bring an end to weak offshore flow there.

Reno Weather:

Weak low pressure drifting into southern California will increase clouds today with a few light showers near the sierra. Chances for more showers and isolated thunderstorms continue Thursday through Saturday as another low moves inland from the west coast. Very warm temperatures will cool off to near seasonal normal by the weekend, before warming slowly again next week when dry conditions return.

San Francisco Weather:

Showers and isolated thunderstorms will be possible today as an upper level low approaches the central coast. Dry conditions return on Friday as this system exits the region and the next system begins to approach from the northwest. This system will bring a slight chance of precipitation to far northern California before shifting inland on Sunday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Warm and dry weather continues Wednesday with a cool down and chance of mainly Sierra Nevada showers Thursday into Friday. A stronger frontal system brings more widespread shower chances over the weekend.

Hanford Weather:

An upper level low will slowly track northeast toward central California today and move through the region on Thursday. This system will bring slightly cooler temperatures to the area along with chances of showers and isolated thunderstorms on Wednesday and Thursday. Another system will push through the region over the weekend bringing another chance of showers to the area on Saturday night and Sunday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A low to our southwest will bring possible thunderstorm activity today and Thursday. The activity will linger in the mountains into Friday. A cooling trend through the weekend can be expected with another low to bring possible showers and normal temperatures on Sunday. A high will move in next week for a warming trend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Gradually cooler through the upcoming weekend as onshore flow strengthens and clouds increase ahead of a weak low pressure system off the coast. Scattered showers and thunderstorms may break out later this afternoon with a better chance on Thursday and into Friday. Showers will be most widespread over San Bernardino County. A second low pressure system will approach from the northwest during the weekend. This system will bring cooler weather and a lower chance for scattered showers.

Southeast California Weather:

High pressure will produce another unseasonably warm day today. The high pressure will be displaced by a couple of low pressure systems during the rest of this week and into next week. This will lead to a gradual cooling trend and a chance of showers and thunderstorms Thursday through Monday.

STATE WEATHER MAP

FIRE ACTIVITY

FIRES, SOUTHERN OPERATIONS AREA

Cienega, Vegetation Fire, San Benito County

Location: Cienega Rd. x Lime Kiln Roads, Thompson Creek area, South of Hollister

Jurisdiction: SRA

Start Time: 10/12/15 at 1600 hours

Per CAL FIRE, Cal OES and/or ICS-209 as of 10/14/15 at 0716 hours:

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.
